ABOUT ME

Aspiring Machine Learning Engineer who builds and deploys end-to-end ML applications using Python, Scikit-learn, and PyTorch. Designs scalable models, performs data analysis, and applies AI techniques to solve real-world problems.

TECHNICAL SKILLS

Programming: Python, SQL
Libraries: Pandas, NumPy, Matplotlib, Seaborn
Machine Learning: Regression, Classification, Clustering
Deep Learning: CNN, NLP, PyTorch, TensorFlow
Generative AI: LLMs, Prompt Engineering (Learning)
Cloud & Deployment: AWS (EC2, S3 – Learning), Azure (Learning), Docker, FastAPI.
Core Skills: Machine Learning, Deep Learning, Data Analysis, Feature Engineering, Model Deployment, Recommendation Systems
Core Concepts: OOPs, DBMS

PROJECTS

- **Book Recommendation System**

Developed a collaborative filtering–based book recommendation system and deployed it as an interactive web application using Streamlit.
Technologies: Python, Pandas, Scikit-learn, Streamlit
GitHub: https://github.com/DhanushGowda22/Book-recommender-system
Live Demo: https://book-recommendationsystem-readanox.streamlit.app/

- **Multimodal Emotion Detection System (Audio + Face + Text)**

Developed a multimodal emotion detection model using CNN, audio feature extraction, and NLP, achieving 90% training accuracy and enhanced real-time performance.
Technologies: Python, PyTorch, OpenCV, Librosa, CNN, LSTM, NLP

- **Heart Disease Prediction**

Built An end-to-end Machine Learning web application that predicts the risk of heart disease (Accuracy: 86%).
Technologies: Python, Scikit-learn, FastAPI, Html, Render.
GitHub:https://github.com/DhanushGowda22/CardioPredict
Live Demo: https://cardiopredict-a18b.onrender.com/

CERTIFICATIONS

- Advanced Certification in Data Science & AI – Indian Institute of Technology Roorkee (via Intellipaat) | 2026
- Microsoft SQL Certification Training | Intellipaat | 2026
- Python Certification Course | Intellipaat | 2026
- Problem Solving (Intermediate) HackerRank | 2026
- Git & GitHub Bootcamp LetsUpgrade | 2026

EDUCATION

Bachelor of Engineering (B.E.) – Electronics and Communications Engineering
Vidya Vikas Institute of Engineering and Technology
2022 – 2025 |Mysore, India.
CGPA: 8.0 / 10

ACHIEVEMENTS / ACTIVITIES

- Built and deployed 4+ end-to-end Machine Learning projects using Streamlit and FastAPI.
- Achieved 87% training accuracy in a multimodal emotion detection system and 86% accuracy in heart disease prediction.
- Designed recommendation systems using collaborative filtering and deep learning models.
- Solved 100+ coding problems on HackerRank, strengthening problem-solving skills.
- Maintained an active GitHub profile with projects, documentation, and live deployments.
- Built end-to-end ML pipelines covering data preprocessing, model training, evaluation, and deployment.
- Strong understanding of data analysis, feature engineering, and model evaluation techniques.
- Demonstrated ability to apply machine learning concepts to solve real-world problems.
